

TRUCKING TIPS

Volume: 10 Issue : 2 June 2006

Fee Changes for Passenger and Household Goods Carriers

Filing fees for new companies transporting passengers and household goods in Indiana will increase as of July 1, 2006. The filing fee will now be \$100 per application and the publication fee will increase to \$80.

Also effective as of July 1, 2006, the commissioner may suspend or revoke any registration, permit or certificate of authority -- if the applicant does not file all tax reports or does not pay all taxes, penalties and interest owed to the Department of Revenue.

Please review Indiana Code 8-2.1-22.40 for more details.

International Registration Plan (IRP) Internet Renewals

Processing your renewal electronically can help you save money and time waiting in line. The process is simple and the results are immediate. When you renew your vehicles electronically, simply print the cab card from your own printer and place it in your vehicle.

If you prefer to mail in your bill, you can still apply your renewal electronically and then print the renewal bill. Mail-in the payment or stop by the office to pay your bill.

Regardless of which option you choose, applying for your renewal on the Internet is more convenient. To apply for your renewal electronically, go to

<https://ossxweb1.dor.in.gov/main/irpindex.jsp?LoginInfo=no>

Motor Carrier Fuel Tax Refunds

Beginning July 1, 2006, motor carrier fuel tax refunds will be applied toward outstanding tax debts. Previously, these refunds were not used to offset tax debts other than a fuel tax liability.

If you have a tax debt and are due a fuel tax refund, motor carrier services will use that refund to pay all or part of the taxes due. If the refund amount is greater than the taxes owed, you would receive the remaining refund. In cases where the refund amount is less than the taxes owed, motor carrier services will apply all of the refund to the liability.

Please see Indiana Code 6-8.1-9-3 for more details.
